Project Design Phase-I
Proposed Solution Template

Date	02 March 2026
Team ID	171
Project Name	Quotes Recommendation Chatbot
Maximum Marks	2 Marks

Proposed Solution Template:

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Many people search for motivational, inspirational, or emotional quotes for personal motivation, social media posts, or daily inspiration. However, existing quote websites provide random and repetitive quotes without personalization.
2.	Idea / Solution description	The proposed system is a Quotes Recommendation Chatbot powered by Generative AI and a ReactJS-based interface. Users can interact with the chatbot by typing their mood, topic.The chatbot analyzes the input and instantly recommends relevant quotes
3.	Novelty / Uniqueness	The system integrates Generative AI with a conversational chatbot interface to provide personalized quote recommendations. Unlike traditional quote websites, the chatbot understands user input and delivers context-based quotes in real time.
4.	Social Impact / Customer Satisfaction	The chatbot helps users improve their emotional well-being by providing motivational and positive quotes instantly. It saves time, enhances user experience, and supports individuals who need encouragement during stressful situations.
5.	Business Model (Revenue Model)	Possible revenue sources include advertisements within the application, premium subscriptions for personalized features, partnerships with content creators, and integration with social media platforms for promotional services.
6.	Scalability of the Solution	The solution can be easily scaled as a web application, mobile application, or API service. It can support a large number of users and can expand to include additional features such as multilingual quotes and integration with social media platforms.
