Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	01 March 2026
Team ID	171
Project Name	Quotes Recommendation Chatbot
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Onboarding	Registration through Form Authentication via Gmail/ Google API
FR-2	Preference Profiling	Selection of favorite genres Sentiment-based mood input
FR-3	Recommendation Engine	Content-based filtering using NLP/Cosine Similarity Hybrid recommendation
FR-4	Interaction & Feedback	"Like/Dislike" buttons to refine future suggestions Option to save/bookmark favorite quotes
FR-5	Multi-platform Access	Integration with Telegram or WhatsApp APIWeb-based chat interface (Streamlit or Flask)
FR-6	Data Insights & History	Maintain a database of previously recommended quotes to avoid immediate repetition.

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	**Usability**	The chatbot should provide an intuitive, conversational nterface with < 3 steps to get a recommendation.
NFR-2	**Security**	User data and preferences must be encrypted; OAuth 2.0 used for Gmail logins.
NFR-3	**Reliability**	The system should maintain 99% uptime and handle API failures gracefully by showing cached quotes.
NFR-4	**Performance**	Quote generation/retrieval should occur within 2 seconds of the user's request.
NFR-5	**Availability**	The chatbot should be accessible 24/7 across all integrated platforms.
NFR-6	**Scalability**	The architecture should support a growing database of quotes and an increasing number of concurrent users.
